## 2. PROJECT OUTLINE

### 2.1 SIMPLE DESCRIPTION (Max. 300 words)

*Please outline, in terms that any non-expert would understand, what your research project is about, including what participants will be required to do. Please explain any technical terms or discipline-specific phrases.*

Our Final Year Project idea is to develop a property renting application that will digitize the tedious application that comes with applying for a property lease. Our main goal with this project idea is to make property rental as easy and convenient as possible and provide a safe and secure environment for landlords and tenants to rent and let properties. Main features include creation of user profiles, which can then be updated with supporting documentation that will verify their identity and supporting reference material.

### 2.2 AIMS OF AND JUSTIFICATION FOR THE RESEARCH (Max. 400 words)

*State the aims and significance of the project. Where relevant, state the specific hypothesis to be tested. Please provide a brief description of background research, a justification as to why this research project should proceed in that context and an explanation of any expected benefits to the community. NB – all references cited should be listed in an attached bibliography.*

We feel that the current method to find a property to lease is outdated and it takes way too long. Creating a platform that allows having user profiles with dynamic search based on the criteria set out by the landlords would eradicate some of the slow processes.

### 2.3 DESCRIBE THE METHODOLOGY BEING USED TO ACHIEVE YOUR STATED AIMS

*Provide an outline of the proposed method and state who is doing which task – include details of data collection techniques, the tasks participants will be asked to do, the estimated time commitment involved, and how data will be analysed. If the project includes any procedure which is beyond already established and accepted techniques please include a description of it. There should be enough detail provided to facilitate ethical review, but applicants are encouraged to keep it as succinct as possible.*

We plan to conduct our research by carrying out **surveys** and **interviews** with landlords and tenants. We might also look to speak real estate agents, governing bodies and Residential Tenancies Board to gain more insight about Irish rental market.

### 2.4 PARTICIPANT PROFILE

*Provide the number, age range and source of participants. Please provide a justification of your proposed sample size. Please provide a justification for selecting a specific gender, age, or any other group if this is done in your project.*

Our participant profile will be people who are living in rented accommodation and landlords who are leasing properties.

Our sample size will be around 50-100 renters and 10-25 landlords, all of the participants will be above the age of 18 who rent or lease out a property.. The renters and landlords will sourced through the use of social media platforms or through friends of friends.

#### 2.4(a) PARTICIPANT VULNERABILITY

Are some or all of participants vulnerable in any way? (e.g by virtue of the group they belong to, people who have undergone traumatic or adverse emotional events, people with diminished cognitive ability, power relations between researchers and participants etc.)? If they are, state what this vulnerability (or vulnerabilities) is and justify why this research is being done with such participants.

N/A

#### 2.4(b) CHILD PARTICIPANTS (anyone under 18 years old)

If your participants include children, you **must** confirm that you are in compliance with the research specific guidelines as detailed in "Keeping Children Safe - Policies and Procedures supporting Child Protection at DCU" - available at: [https://www4.dcu.ie/sites/default/files/policy/157%20-%20child\\_protection\\_handbook\\_rev1%282%29%281%29.pdf](https://www4.dcu.ie/sites/default/files/policy/157%20-%20child_protection_handbook_rev1%282%29%281%29.pdf)

Please indicate your compliance with the following guidelines:	Mark here
We confirm that we have read and agree to act in accordance with the DCU Child Protection policy and procedures	N/A
We confirm that we have put in place safeguards for the children participating in the research	N/A
We confirm that we have supports in place for children who may disclose current or historical abuse (whether or not this is the focus of the research)	N/A

#### 2.5 EXPLAIN HOW PARTICIPANTS ARE TO BE RECRUITED

Please provide specific details as to how you will be recruiting participants. How will people be informed that you are doing this research? How will they be approached and asked if they are willing to participate? If you are mailing or phoning people, please explain how you have obtained their names and contact details. If a recruitment advertisement is to be used, please ensure you attach a copy to this application.

We will reach out to tenant and landlord research participants by posting our questionnaire on social media platforms asking people to complete. We will also ask our course to distribute our survey to any renters and landlords that they might know. We will also reach out to known tenants and landlords to conduct interviews with us.

#### 2.6 PLEASE EXPLAIN WHEN, HOW, WHERE, AND TO WHOM the RESULTS WILL BE DISSEMINATED, INCLUDING WHETHER PARTICIPANTS WILL BE PROVIDED WITH ANY INFORMATION AS TO THE FINDINGS OR OUTCOMES OF THE PROJECT?

The results obtained will be only available to be accessed by Maksims Kompanijecs, Matthew Farrelly and our Supervisor Jane Kernan. The participants will not be provided with the information about the findings of this project.

#### 2.7 ARE OTHER APPROVALS REQUIRED TO GAIN ACCESS TO ANOTHER LOCATION, ORGANISATION ETC.? (e.g. a School or company)

YES or NO

**NO**

*(If YES, please specify from whom and attach a copy of the approval documentation. If this is not yet available, please explain when this will be obtained.)*

Participants involved in such projects need to be advised of this limitation in the Plain Language Statement/Information Sheet. If you intend to fully anonymize the data, please provide details*

In order to guarantee anonymity, no personal data will be collected - such as names. Surveys will be conducted in an anonymous matter and people that we interview will remain anonymous too

**4.3 LEGAL LIMITATIONS TO DATA CONFIDENTIALITY**

*Participants need to be made aware that confidentiality of information provided cannot always be guaranteed by researchers and can only be protected within the limitations of the law - i.e., it is possible for data to be subject to subpoena, freedom of information claim or mandated reporting by some professions. Depending on the research proposal and academic discipline, you may need to state additional specific limitations.*

*State how and where participants will be informed of these limitations*

The participants will be made aware that confidentiality might not be guaranteed. Participants will have a choice to fully commit to this research themselves.. This will be clearly communicated to the participants before the interviews/surveys take place.

Upon completion of RentSpot questionnaires and prior research interviews taking place, we will ask our candidates to agree to our terms and conditions with regards to conducting field research. All data collected will not be assigned to a name but rather a customer segment ensuring anonymity.

The PLS should specifically describe what will be expected of participants, the risks and inconveniences for them, and other information relevant to their involvement. Please note that the language used must reflect the participant age group and corresponding comprehension level – if your participants have different comprehension levels (e.g. both adults and children) then separate forms should be prepared for each group. The PLS can be embedded in an email to which an online survey is attached, or handed/sent to individuals in advance of their consent being sought. ## 8. INFORMED CONSENT FORM *(Attach to this document. Approx. 300 words)*

*In most cases where interviews or focus groups are taking place, an Informed Consent Form is required. This is an important document requiring participants to indicate their consent to participate in the study, and give their signature. If your participants are minors (under 18), it is best practice to provide them with an assent form, while their parents/guardians will be given the Informed Consent Form. In cases where an anonymous questionnaire is being used, it is enough to include a tick box in the questionnaire (underneath the information section for participant), where participants can indicate their consent. See link to sample templates on the website: <https://www.dcu.ie/researchsupport/ethicsapproval.shtml>*

**NB – IF AN INFORMED CONSENT FORM IS NOT BEING USED, THE REASON FOR THIS MUST BE JUSTIFIED HERE.**

**PROJECT SUPERVISOR:** Jane Kernan - [jane.kernan@dcu.ie](mailto:jane.kernan@dcu.ie)

This research project will be conducted as a part of our primary research for our Final Year Project(FYP) idea. Our FYP project idea is to develop a property rental platform which will digitize the lease application process. With this research project we are hoping to get a better understanding about Irish rental property market from a viewpoint of being a tenant or a landlord.

This research project will consist of a questionnaire, which will have a number of questions about Irish rental property market and their own experiences within this market. This questionnaire shouldn't take longer than 10 minutes to complete. An interview will be very similar in the sense of questions in the same format and it shouldn't last longer than 30 minutes.

If a landlord or tenant decides to participate, they will need to answer a number of questions relating to Irish rental property market and their own experiences within it.

Their privacy will be protected, as the results collected from questionnaires and interviews will be anonymous and no names will be associated with answers.

There are no benefits from participating in this study and there are no risks involved.

Data collected will be stored on DCUs Google Drive.

Any data collected from this study will be destroyed by June 1st 2020.

The participants can withdraw from this research study at any point.
